

Letters in Support of e-Bike Rebates

These letters were assembled in mid-2020 and presented to CT DEEP and the CT CHEAPR Board. At the time it was identified that the annual EV rebate budget was going to be far under spent, and e-bike rebates were being proposed as an equitable EV pilot project.

We expect e-bike incentives to come up again in the 2022 CT CHEAPR EV Rebate Board Meetings and in proposed legislation. Please consider these letters from businesses, legislators, and CT voters when evaluating the value and positive impact of an e-bike incentive program.
